

The Prostate Cancer Foundation (PCF)

Firmly committed to curing prostate cancer, PCF is the leading philanthropic organization funding and accelerating research globally.

Since 1993, our unique strategies for identifying and investing in the most promising research programs have generated life-saving results. We channel resources to the world's top scientific minds—cutting red tape and encouraging collaboration to speed breakthroughs.

As a champion for increased government and private support, PCF has helped build a global research enterprise of nearly \$10 billion. Through the generous contributions of our donors, we have raised more than \$475 million and provided funding to more than 1,600 research projects at nearly 200 institutions in 15 countries around the world.

The Reliable Source for the Latest Developments

For more than 16 million men and their families fighting prostate cancer globally, PCF is a primary source for new standard-of-care and research information. We connect patients, loved ones, care providers and scientists to critical updates, the latest developments, best practices and news from the treatment pipeline.

Advancing Hope, with Your Help

Many important discoveries in the fight against prostate cancer since 1993 resulted from PCF funding or coordination—including the development of new medications, gene therapy approaches and the development of vaccines that may soon work with the body's immune system to kill prostate cancer cells.

Thanks to these and other victories, the U.S. death rate from prostate cancer has dropped nearly 40% from what was once projected. But much more work remains—and we must intensify our efforts now. Too many men still die from prostate cancer; too many families still suffer.

Join the Fight

Spread the word to friends and colleagues about prostate cancer and PCF. Follow our online efforts to raise awareness and visibility.
