Why Your Support Matters

More than 14 million men worldwide are living with prostate cancer, and every year more than 300,000 lose their fight. These are our fathers, uncles, grandfathers, brothers and friends. With an estimated 1 in 9 men diagnosed in their lifetime, we all know someone who has been affected. Ongoing medical advances show we are closer than ever to a cure, but we need your support. Join Operation Terminate Prostate Cancer and help PCF defeat this disease once and for all.

About the Prostate Cancer Foundation

The Prostate Cancer Foundation (PCF) is the world's leading philanthropic organization funding and accelerating prostate cancer research. Founded in 1993, PCF has raised more than \$745 million and provided funding to more than 2,000 research programs at more than 200 cancer centers and universities. The PCF global research enterprise extends to 22 countries and funds a robust research portfolio. PCF advocates for greater awareness of prostate cancer and more efficient investment of governmental research funds for transformational cancer research. PCF's efforts have helped produce a 20-fold increase in government funding for prostate cancer. More information about PCF can be found at www.pcf.org
